# ALL BIDDERS PLEASE READ

## **Terms Governing This Sale**

Bidders unknown to us will please furnish bank or other references or deposit 25 per cent with their bids and it is agreed that remittance will be made upon receipt of invoice if references are not furnished.

Any coin which is not satisfactory may be returned within five days from date of receipt for full refund. You must be satisfied. **PAYMENT TO BE MADE UPON RECEIPT OF MERCHANDISE.** Coins remain our property until paid for. There will be no charge for executing your bids but the purchasers will be required to pay the postage and insurance on their purchases. If you do not wish coins sent airmail please note this on your bid sheet.

We shall welcome your bids and will try to purchase the coins as much below your bids as possible. **PLEASE BID BY THE LOT.** Unlimited bids are executed at an advance of 5 per cent over the next highest bid. Numbers in ( ) are the quantity of that item.

If you are interested in any particular coin, we shall be glad to have you write us for full information. **LOTS CANNOT BE BROKEN.** Be sure you bid on the correct lot as we cannot be responsible for errors in bidding.

## **NOTICE TO NEW BIDDERS**

### **Our Mail Auction Sales Are Conducted in the Following**

1. Bids are entered in the order received; if identical bids are received, the first bidder is awarded the lot. **SEND BIDS AIRMAIL—IT PAYS.**

2. The highest bidder on the date of the sale is awarded the coin at a slight advance over the second highest bidder. **Bids you send in are the maximum you are willing to pay for the coin. WE, AS YOUR AGENT, TRY TO BUY THE COIN AS LOW AS THE NEXT HIGHEST BID WILL ALLOW.**

3. Valuations placed in the auction catalog are catalog prices, prices generally asked by dealers when the coin is in stock, or prices generally realized at auctions.

**ANY COIN WHICH IS NOT AS REPRESENTED MAY BE RETURNED WITHIN FIVE DAYS FROM DATE OF RECEIPT FOR FULL REFUND. YOU TO BE THE SOLE JUDGE AS TO CONDITION. YOU MUST BE SATISFIED.** No, you won't receive a nasty letter for returning a coin—instead you will receive a letter thanking you for calling attention to the error made in cataloging. While we try to describe coins as accurately as possible, it is inevitable that an occasional error is made in the cataloging of thousands of coins each month. Whenever this happens, we want it called to our attention to help prevent future errors.

The coins will be on display the day of the sale at our offices and can be seen by appointment any day prior to the sale.

If you are not interested in these sales, won't you advise us so we may discontinue sending you catalogs.

# IS THIS YOUR FIRST AUCTION CATALOG?

11th EDITION GUIDE BOOK USED IN CATALOGING THIS SALE

**Proof coins, branch mints 1892-1940 unc., and currency** seem to be rising the most rapidly at present with most bringing close to listed values and a great number bringing even more. Many are rising from month to month with a number "just not obtainable." The coins most in demand will have the greatest number of bidders and with the law of supply and demand working, these coins keep setting new records.

Occasionally a collector writes us asking why our estimated values in some instances are higher than the catalog listing. This occurs when the demand is so great and the supply so small that new records are set whenever these coins come upon the market. If one will take a few moments to reflect, he will understand that it takes several months to compile the necessary information before the catalog can be published, therefore, it is inevitable that the catalog listing will be under the prevailing market price on the items in popular demand at the time of the publication. **The estimated prices are entered only after careful examination of the results obtained in our past sales which reflect the actual and not theoretical value. (PLEASE NOTE THAT MANY OF THE ESTIMATES ARE CATALOG VALUE ONLY. MANY OF THE GOLD COINS, SILVER \$1, WASHINGTON QUARTERS, ETC. ARE ESTIMATED AT CATALOG.)** in the final analysis, you the collector, are the one who sets the price.

**BIDS ARE RECORDED AS FOLLOWS:** Each bid sheet is given a number as it comes in, and the bids are recorded. In the event of identical bids, the first bidder receives the lot. At the last day of the sale, the books are closed with the highest bidder on each lot being awarded the lot at an advance of not over 5% above the next highest bidder. For illustration—the two highest bids received on a lot may be \$17 and \$20. The highest bidder who bid \$20 would receive the lot at \$17.25. We act as your agent and use your bids as a limit—not as a final bid unless we are forced to do so to obtain the lot. We accept unlimited bids which generally assures the bidder of obtaining that lot regardless of what the highest bid may be. Where the lot is bringing far more than we believe it is worth or in the event of two unlimited bidders on the same lot, we notify the unlimited bidders by phone or wire, if necessary, in order to obtain a fixed limit to the bid. Even the auction purchases are supposed to be final, we do not want you to keep any lots which you believe are improperly described. We endeavor to treat our customers as we would wish to be treated. Coin collecting is a personal hobby which makes life a little more pleasant. We try to keep it on a friendly basis and value the many friends we have made thru the years. If you have any complaints, we want to hear them as well as any compliments.

**YOUR SUCCESSFUL BIDS WILL INSURE YOUR RECEIVING THESE  
SUCCESSIVE CATALOGS WITHOUT INTERRUPTION.**

## BARGAINS GALORE

In every sale, some lots go at "bargain prices." May we suggest that in addition to bidding on those lots you "really want," you place nominal bids on those lots that "you might buy if they went at bargain prices." While you may not obtain many of these "bargain lots," yet in every sale you may pick up some real bargains.

Sincerely,

A. M. KAGIN and PAUL KAGIN.

# YOU MUST BE SATISFIED

Our Sales Are Cataloged With You in Mind. If you have any suggestions, complaints, compliments (yes we receive some now and then), we want to hear them. Having cataloged over two hundred successful coin auctions, we believe we are qualified to advise and help you with your numismatic problems. No, we don't "know-it-all" but we do know where to obtain the information we don't have.

We have a number of want lists on hand for the scarce and rare United States coins and currency. Our average commission for obtaining these specimens is only 10 per cent, therefore we believe we can pay the top price for your choice and scarce pieces, no matter how rare. Don't you think it is worth a 6¢ airmail stamp to find out what we would pay for your outstanding pieces? Naturally we buy collections, too.

## SOMETHING NEW HAS BEEN ADDED

We wish to call your attention to the new service extended as per the bottom of the **bid sheet**. After receiving requests to apply the amount saved in the awarding of successful bids below the bids authorized we decided to avail this service to all of our clients. It is often exasperating to lose a lot by a few nickels when the amount saved on the successful bids would have been sufficient to increase the original bid to the point necessary to receive the lot. Check the bottom of your bid sheet.

## TWENTY CENTS

The shortest-lived regular U. S. series. For all practical purposes, in circulation for only one year (1875-S-CC come worn but others generally available in only the better conditions). The attempt to change from "two-bits" (25c) to a decimal unit (20c) caused so much confusion that it was abandoned. The 1875 and 1876 "P" mints, if they did circulate, did so on a very limited scale; the 1877 and 1878 were struck only in proof for collectors and a great portion of these were melted.

## \$20 GOLD

This series seems to be somewhat undervalued in relation to the others. How long this situation will continue, we do not know. It would seem to be an opportune time to build a collection while prices are still "cheap."

## TRADE DOLLARS

The only U. S. coin no longer worth its face value. Issued for use in the Orient trade, the experiment proved unpopular. Thru an oversight of the law, they could also be used in the U. S. resulting in two different silver dollars being legal tender at the same time. They were demonitized and redeemed resulting in only a very small portion of the original issue remaining in existence.

**826 1794 TYPE I, BUST WITH FLOWING HAIR, SPREAD EAGLE, very fine and sharp obverse with stars fully struck up; reverse easily extremely fine and sharply struck. FREE FROM THE USUAL "MINT ADJUSTMENT MARKS." THE CHOICEST SPECIMEN TO PASS THROUGH OUR HANDS IN QUITE SOME TIME. A magnificent specimen and superior to the one offered at the Central States Bourse in St. Louis during April, 1957 for \$3500.00 An uncirculated specimen in the A.N.A. Convention Sale, August 1956 at Chicago realized \$8,000.00. However, you decide what it is worth to you by your bid.**

827	1794 8 Reales of Mexico ("Spanish Milled Dollar") Charles III, V.F. This actually circulated in the United States and was legal tender until 1857; in fact, the U.S. silver dollar was patterned after it. A genuine 1794 American dollar. Owner says he paid....	22.50

836	1797 B-1, TYPE III, STARS INCREASED FROM 8x7 TO 9x7 (Tennessee admitted to Union) very nearly uncirculated. Large Letters. RARE. Catalogs unc.....	300.00
837	1797 B-3, TYPE IV, STARS 10x6, very fine. VERY SCARCE. A careful analysis of the specimens to come upon the market in the last twenty years leads us to believe that this coin is close to 50% scarcer than the above. GREATLY UNDERVALUED IN KEEP-ING WITH ITS TRUE SCARCITY. We note Bolender has also acknowledged this fact to some degree altho not to the extent our records indicate. We honestly believe this coin should be worth \$150.00, but you decide its worth to you by your bid.	
838	1798 B-1a, TYPE V, STARS 7x6 SMALL EAGLE, bought as "uncir-culated" and while the stars are sharp, the other higher points do show some friction. RARE. A greatly undervalued date and variety and ONLY YEAR OF TYPE. In checking offerings of the last twenty years, we find its present value does not adequately re-lect its true rarity. Cataloged in unc. at.....	250.00
839	1798 B-2, TYPE II, STARS 8x7, SMALL EAGLE (we believe this die was started in 1796 and the date 1798 hurriedly punched in the early part of 1798 to supply an unexpected demand) ex-tremely fine. VERY RARE. Greatly undervalued—just check and see how seldom this is offered. Remember, these conclusions are based upon twenty-odd years of professional experience (as well as additional years as collectors) and careful records kept over a similar period. If we had an uncirculated specimen in stock, our asking price would not be less than .....	350.00

## CURRENCY—SMALL SIZE

We note a steadily increasing demand for this series with several developing into real sleepers. No doubt this will be reflected in the next edition of Friedberg's excellent book. Since the first edition was published in August 1953, the second in August 1955, it appears that the third edition should be issued in the near future. A careful analysis of the price rises from the first to the second edition should be a guide to the probable price rises from the second to the third edition—need we say more?

## WAR & EMERGENCY NOTES

---

Issued during the war; the R and S notes were experimental in nature with R denoting regular paper and the S denoting "sized" paper, these two were released only thru the Chicago Federal Reserve. The HAWAII notes when issued, were only good in HAWAII (in case we lost Hawaii these notes would have been declared void) and what were left after the war were allowed to come back to the States to be used up. The yellow seal notes were issued for use with our armed forces in North Africa and Sicily (to be declared void if captured by the enemy).

## NATIONAL BANK NOTES—FIRST CHARTER PERIOD

A very interesting group containing many UNLISTED VARIETIES AND VARIATIONS. Now that collectors are taking an increasing interest in this series, we feel that many new varieties will eventually be added to the listings. Those acquiring these varieties now, have an opportunity to be in "on the ground floor" before demand pushes the prices far above present day values. Just look at prices in general for currency before the first Friedberg book came out in August 1953 and at prices now. When the new definitive book comes out on Nationals, we believe the same thing will happen in this field.

## 1882 DENOMINATIONAL BACKS

All very scarce with most actually rare, especially in choice condition. **Greatly undervalued in keeping with their true rarity.** In demand for type, regional overprint, and for city and state. Since they were more in the nature of an emergency issue and circulated in limited amounts, we believe that with the increasing demand the prices must inevitably show substantial rises in the not too distant future.

### 1902 BLUE SEAL, PLAIN BACK

We note a sharp increase in the amount of collectors trying to assemble a set of notes from all 48 states, D. C., Alaska and Hawaii. The amount of premium involved over face value is not very large and the "hunt" is quite interesting. Of course the collecting of the state wherein the collector lives continues to attract new collectors—try using a road map as a check list of cities. The collection is never quite complete and enough new notes are added from time to time to keep up the interest. Keep in mind the high "cash value" contained in a collection of of this nature should any emergency arise.

## 1914 FEDERAL RESERVE NOTES, RED SEALS

---

Greatly undervalued series. Used only a comparatively short time and judging from how few come upon the market, not very many were "laid away." We unhesitatingly recommend this issue for future increase in value for someone with a little patience. Certainly, present day prices are ridiculously cheap compared to their true scarcity.

## 1914 FEDERAL RESERVE NOTES, BLUE SEALS

---

Undoubtedly more "sleepers" exist in this series than any other at present. **We DO NOT KNOW OF A SINGLE COMPLETE SERIES IN EXISTENCE.** There are also several major sub-varieties in existence when they will no doubt come to light in future currency books. It would seem that now would be the time to build a set of either one of each value from the 12 banks, or a complete series of all signatures. **CERTAINLY, FOR THE SMALL PREMIUM INVOLVED, A PERSON "COULD NOT LOSE MUCH"** and stands to gain when collectors "wake up" to how scarce some of these really are.

While all errors are relatively scarce, many are rare and very rare. With the increasing interest in this field, we believe present day prices will appear ridiculously cheap in the near future.

---

Quite popular after rising rapidly in 1956, they stabilized in early 1957 and now appear to have started up again. Judging from the enormous demand, we believe present day prices will appear as "bargains" a year or so from now.

**GOLD DOLLARS**

Very popular with new records being set nearly every time offered, especially on the scarcer pieces. A quick comparison between the just issued 11th edition of the Guidebook and the 10th shows substantial rises thruout the series with some doubling in value. Upon checking auction records of the last six to nine months, we note an even sharper rise. In fact, the prices obtained at the Central States Convention Auction this April reflected an actual market valuation of up to nearly double (in some instances) the prices listed in the new Guidebook. Since a number of the coins in that sale were bought by dealers, we cannot help but feel that this sharp upward trend in prices of this popular series will continue.

It is also used in Russia and Siberia. VERY RARE SO LARGE.....	500.00

HALF DOLLAR SILVER — Designs by Charles E. Barber— issue limited to 200,000 pieces. OBVERSE: Columbia scattering flowers; attendant with cornucopia, to signify the boundless resources of the West. Background, Golden Gate illumined by the rays of the setting sun. PANAMA-PACIFIC EXPOSITION\*1915. REVERSE: Shield of the United States surmounted by American Eagle and supported on the one side by a branch of oak, emblem of strength and stability, and on the other side by the olive branch of peace. United States of America\*HALF DOLLAR \*In God We Trust.

QUINTUPLE EAGLE (\$50) GOLD—Round and Octagonal— Designs by Robert Aitken—The first Fifty Dollar Gold Pieces to be issued under the authority of the United States. Total issue limited to 3,000 pieces. The motives used in these designs were selected by the sculptor because of their simple dignity and far-reaching significance, as well as for their decorative pattern. (this appears under the octagonal \$50).

OBVERSE: Minerva, the Goddess of Wisdom, Skill, Contemplation, Spinning, Weaving and of Agriculture and Horticulture. United States Of AMERICA\*FIFTY DOLLARS\*M.C.M.X.V. in field. In God\*We Trust. REVERSE: Owl, sacred to Minerva, the accepted symbol of Wisdom, perched upon a branch of western pine. PANAMA-PACIFIC EXPOSITION\*SAN FRANCISCO. In field. E\*Pluribus\*Unum. The Designer's initials, R. A. Dolphins, suggesting as they encircle the central field, uninterrupted water route made possible by the Panama Canal, occupy the angles of the octagonal coin.

(The figures were of the amount authorized to be struck but after melting the unsold remainder, the following were the amount actually issued: 50c 27,134 (of which probably half of those still in existence are in circulated condition) \$1 25,000 issued of which a number were redeemed and melted when gold coins were "called-in" in 1933. \$2½ 6,749 actually issued but many melted when "called-in." Judging from how few appear in uncirculated condition, we would venture to say that half of those still in existence are in circulated condition. \$50 Round, 483 only of which many were melted when gold was "called-in." Of course, in uncirculated condition only a very small fraction are still in existence. \$50 Octagonal, 645—same comments as for \$50 round).

Since this set is in the rare original hammered copper display frame with original descriptive tags and ribbon, we believe it will bring in the neighborhood of \$5,000.00. Judging from the rate of rise in value of this popular set, we believe that within three or four years this "prize" will bring closer to \$10,000.00
